

### Examples of our activities by associated LEVEL of MDM complexity

**Data elements:** Each option (column) lists combinations of elements consistent with **moderate** complexity

Option 1	Option 2	Option 3	Option 3	Option 4	Option 5
Coordination with qualified health professional	Review SNF record	Review SNF record	Review SNF record	Review SNF record	Order 3 independent/unique tests
	Review separate document/source (hospital discharge, PCP report, consultant report)	Review separate document/source (hospital discharge, PCP report, consultant report)	Independent historian	Order 2 independent/unique tests	
	Order at least 1 investigation	Independent historian	Order at least 1 investigation		

Note – when ordering an investigation, the MDM is considered upon the order of the test (and includes the subsequent review).
